

Central DuPage Hospital Paramedic Program

CATH/NEURO IR LAB SHIFT EVALUATION WORKSHEET

Student Name: _____ Date: _____ Clinical Site: _____

Page _____ Of _____ In: _____ Out: _____ Preceptor(s): _____ # pt's seen: _____

Directions: Each contact must be rated by the student FIRST, and rated by the preceptor SECOND. Mark student ratings in the row marked "S" and preceptors in row "P." Comment on any discrepancies below.

Ratings: N/A = Not applicable- not needed or expected.
 0 = Unsuccessful-required excessive or critical prompting; includes "Not attempted" when student was expected to try.
 1=Marginal-inconsistent, not yet competent.
 2 =Successful/competent - no prompting

Patient Age/ Sex	Impression and/or Differential Diagnoses	Medication name/# administered Adjunct used	Procedure Witnessed	Rhythm Interpreted	Objectives							Initials
					Pt Interview + HX gathering	Physical Exam	Impression/ Tx Plan	Skill Performance	Communication	Professional Behavior (Affect)	Team Leadership	
												S
												P

Comments and immediate plan for improvement for next contact:

Comments and immediate plan for improvement for next contact:

Comment on any unsatisfactory ratings or discrepancies:

Overall plan for improvement for future shifts:

Student reported on time, well groomed, in uniform and prepared to begin the shift Yes No

Student knows equipment location and use. Yes No

Behavior was professional: Accepts feedback openly Self-motivated Efficient Flexible Careful Confident

Student helps clean up and restock, unprompted. Yes No

Student asked relevant questions and participated in learning answers, used downtime to its highest potential. Yes No

Student left site early (did not complete shift). Yes No

Preceptor would appreciate phone call or email from the instructor (please provide contact info). Yes No

Student Signature:

I agree to the above rating:

Date:

Preceptor Signature

Clinical Objectives:

Pt Interview/Hx Gathering: Student completes an appropriate interview and gathers appropriate history; listens actively, makes eye contact, clarifies complaints, respectfully addresses patient (s); demonstrated compassion and /or firm bedside manner depending on the needs of the situation.

Physical Exam: Student completes an appropriate focused physical exam specific to the chief complaint and/or comprehensive head-to-toe physical examination.

Impression & Tx plan: Student formulates an impression and verbalizes an appropriate treatment plan.

Skill Performance: Student performs technical skills accurately and safely.

Communication: Student communicates effectively with team, provides an adequate verbal report to other health care providers and completes a thorough written patient narrative.

Professional Behavior Objectives: Student demonstrates they are:

Self-motivated: Takes initiative to complete assignments and improve/correct problems, strives for excellence, incorporates feedback and adjusts behavior/performance.

Efficient: Keeps assessment and treatment times to a minimum, releases other personnel when not needed and organizes team to work faster/better.

Flexible: Makes adjustments to communication style, directs team members and changes impressions based on findings. **Careful:** Pays attention to detail of skills, documentation, patient comfort, set-up and clean-up and completes tasks thoroughly. **Confident:** Makes decisions, trusts and exercises good personal judgment and is aware of limitations and strengths.

Open to feedback: Listens to preceptor and accepts constructive feedback without being defensive (interrupting, giving excuses).

Team Leadership Objective: The student has successfully led the team if he or she has *conducted a comprehensive assessment* (not necessarily performed the entire interview or physical exam, but rather been in charge of the assessment), as well as *formulated and implemented a treatment plan* for the patient. This means that *most* (if not all) of the *decisions* have been made by the student, especially formulating a field impression, directing the treatment, determining patient acuity, disposition and packaging/moving the patient (if applicable). Minimal to no prompting was needed by the preceptor. No action was initiated/performed that endangered the physical or psychological safety of the patient, bystanders, other responders or crew. (Preceptors should not agree to a "successful" rating unless it is truly deserved. As a general rule, more unsuccessful attempts indicate willingness to try and are better than no attempt at all.)

Ratings: NA = Not applicable - not needed or expected; this is a neutral rating. (Example: Student expected to only observe, or the patient did not need intervention). 0 = Unsuccessful - required excessive or critical prompting; includes "Not attempted" when student was expected to try; this is an unsatisfactory rating. 1 = Marginal - inconsistent, not yet competent; this includes partial attempts. 2 = Successful/competent - no prompting. **Note: Ideally, students will progress their role from observation to participation in simple skills, to more complex assessments and formulating treatment plans.**

Students will progress at different rates as case difficulty will vary. Students should be active and ATTEMPT to perform skills and assess/treat patients early even if this results in frequent prompting and unsuccessful ratings. Unsuccessful ratings are normal and expected in the early stages of the clinical learning process when student needs prompting. Improvement plans MUST follow any unsuccessful or inconsistent ratings.
